Dear Customer,

thank you very much for purchasing our product.

Please read this installation and operating instructions carefully and keep them in a safe place.

In this manual we have endeavored to provide you with all the necessary information to enable you to have most success with the products.

Ralf Küchel
Technical Manager / CTO

Notes

Scope of Supply

- CONVIS 101/30 WXGA | CONVIS 125/30 FullHD | CONVIS 125/60 FullHD | CONVIS 156/30 FullHD
- HDMI cable
- Table power supply - Input: 100-240V AC, 50 / 60Hz. 1.5A; Output: 12V 60W MAX 5.A (Cable length DC ~ 140cm)
- Power cable 1.5m
- Installation and Operating Instructions / Manual

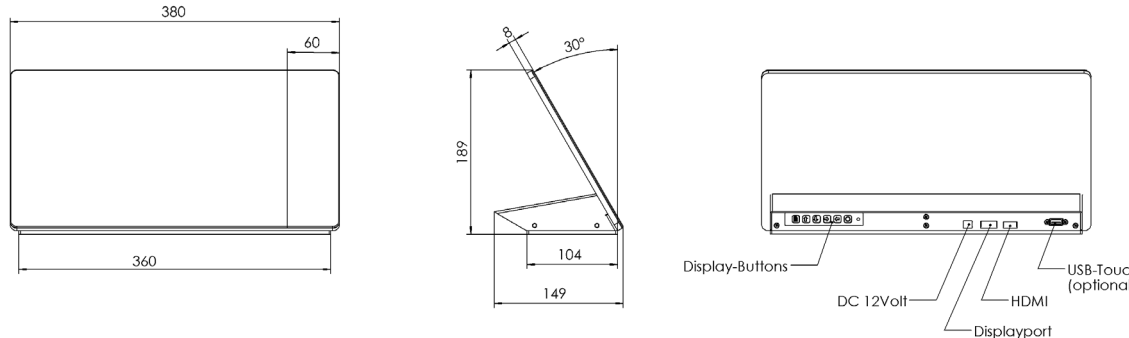

Description

The CONVIS system is a compact conference & desktop monitor with fixed 30° or 60° monitor tilt angle, equipped with a thin BLADE display with flat back, for placing on a horizontal furniture surface.

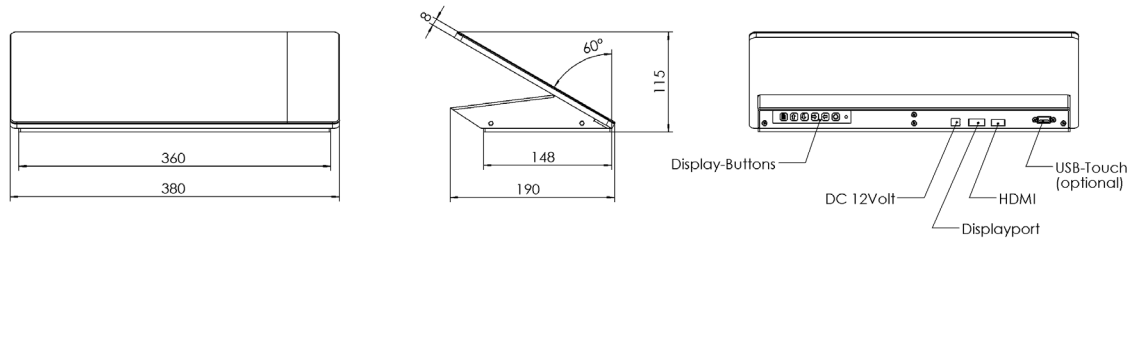

Features

- Ultra-thin BLADE monitor housing 8 mm
- 30° or 60° fixed monitor tilt
- 2 mm anti-reflective safety glass
- Compact housing dimensions
- Milled aluminum, powder coated or anodized
- Monitor housing, steel black powder-coated
- *Optionally* with capacitive multipoint touchscreen
- Passive cooling without ventilation holes
- HDMI HDCP compatible; native WXGA resolution or FullHD resolution
- EMC + EMC protected
- Maintenance free
- 5 year limited warranty

Safety Instructions

= Important Note

= Caution

= Ban

The device may only be opened in a disconnected state by authorized qualified personnel!

Let damage and defects be repaired immediately by authorized specialists.

Do not operate this device with any accessories other than the supplied ones.

In the event of damage caused by third-party accessories, e.g. power supply unit, or unauthorized attachments or modifications, any warranty and liability claims are excluded.

To achieve the best image quality and to avoid image distortions, shadowing, image shifts, synchronization errors, etc., use only high-quality cables: at least double-shielded and with control cable according to VESA DDC 1/2 B standard.

Do not slide sharp or hard objects over the surface, it may be damaged.

Immediately remove any liquids spilled on the surface with a cloth.

Do not cover the switched-on display for a longer period of time. Excessive temperatures due to blocked heat emission can lead to defects or a reduced lifetime.

General Information

Note the following settings:

Graphic resolution native:

CONVIS 125/30 FullHD: FullHD: 1,920 x 1,080 Pixel

CONVIS 125/60 FullHD: FullHD: 1,920 x 1,080 Pixel

CONVIS 156/30 FullHD: FullHD: 1,920 x 1,080 Pixel

CONVIS 101/30 WXGA: WXGA: 1,280 x 800 Pixel

Frame rate = 60 Hz

Higher settings are outside the specification range.

Stresses on the cables caused by pulling and rubbing against components shorten the lifetime and can lead to damage and malfunctions. The cables should be fastened and laid after commissioning.

The following conditions must be observed:

- Do not fall below minimum radii
- Maintain distances to mounting points and structural elements

All edges of furniture parts and other objects located in the cable run must be chamfered or rounded in the area of the cables.

Intense light may affect the image quality.

Make sure that no cables are pinched when placing the device.

Electrical connections should only be carried out when the device is disconnected from the power supply.

**CONVIS 101/30 WXGA | CONVIS 125/30 FullHD | CONVIS 125/60 FullHD |
CONVIS 156/30 FullHD**

Place the device in the desired location.

- Connect the HDMI cable. Please note the correct recommended specification: Maximum length 2.0 m, 4K @ 60 Hz, minimum HDMI 2.0, data rate 18 Gbit/s
- Connect the DC-adaptor cable to the socket on the housing.
- Connect AC plug of the power supply unit to the mains supply.
- *Optional, only devices with touchscreen:* Connect the touchscreen via USB. Maximum length of cable used 1.8 m, included in scope of delivery.

Perform a functional test and then fix the cables. It is recommended to use an external signal source for this without intermediate devices, such as splitters or extenders.

CONVIS 125/60 FullHD
CONVIS 156/30 FullHD**

Operation

General Information

Make sure that cables and contacts are correctly and firmly connected.

Switch on

- Press the button  on the display button bar. The display switches on.
- Befindet sich das Gerät im Standby-Modus, schaltet es sich automatisch ein, sobald ein Videosignal anliegt.

Switch off

- Press the button  on the display button bar. The display switches off.
- As soon as there is no video signal, it automatically switches to standby mode.

Care Instructions

= Important Note

= Caution

= Ban

Disconnect the power supply plug before cleaning work!

To clean the device, use only cloths moistened with water or detergent.

Do not use abrasive cleaners, alcohol, thinners or similar chemicals.

Technical Specification Touchscreen (optional)

Multi Touch Overlay

Compatible with all common capacitive stylus pens.
Capacitive touch sensor

Supported Operating Systems:

WINDOWS: Interface USB/IIC/RS232

- Windows 10
- Windows 8 (logo submission required)
- Windows 7
- Windows Vista, XP/2000
- Windows CE.net/5.0/6.0/7.0
- Windows Embedded
- Windows XP Tablet PC Edition

LINUX: Interface USB/IIC/RS232

- Linux distribution based on kernel 2.6.24 and higher.
- CentOS, Ubuntu/Linux, Debian, Fedora, Red Hat, Gentoo, Meego, Slackware, SUSE/openSUSE, Mageia/Mandriva/Mandrake and Yellow Dog etc.
Support for most 32/64-bit Linux distribution versions, including kernel 2.4.x / 2.6.x / 3.x.x / 4.x.x

Android 2.3 ~ later, interface: USB/IIC/RS232

MAC: Interface USB/IIC

- Mac OS,
- Mac OS X (PowerPC, Intel CPU)

QNX : Interface USB/IIC

- RTOS V6.3 to V6.6

Safety Standards

VESA: DPMS
DDC2B-Standard (Version 2 Level B)

FCC

Declaration of Conformity

We declare under our sole responsibility that devices of the series CONVIS 101/30, CONVIS 125/30, CONVIS 125/60, CONVIS 156/30 comply with the regulations 2006/42/EG, 2006/95/EG, 2004/ 108/EG
Harmonized standards applied:
EN ISO 12000:2010
EN 60950-1+A1:2010
EN 55022:2010
EN 55024:2010
EN 61000-3-2/A1/ A2:2009
EN 61000-3-3:2008

Kuppenheim, 01.09.2023

Technical Manager / CTO

Warranty

- (1) The warranty for ELEMENT ONE products is as follows from the date of purchase.
 - 60 months on all purely mechanical components, and
 - 24 months on all electrical and electronic components.

In the case of a purchase that is a commercial transaction for both parties, the customer must report defects of any kind - except hidden defects - in writing within eight working days (Saturday does not count as a working day) after delivery; otherwise the goods are considered approved. Hidden defects must be notified in writing within eight working days (Saturday does not count as a working day) after discovery; otherwise the goods shall be deemed to have been approved also in view of these defects.

- (2) In the event of injury to life, limb or health for which we are responsible, as well as in cases of intent and gross negligence, the limitation period for material defect claims shall be two years. Otherwise, the limitation period for material defect claims shall be one year.
- (3) Insofar as the delivered goods have a not insignificant defect, the customer may demand, at our discretion, either the rectification of the defect (subsequent improvement) or the delivery of a defect-free item (replacement delivery) as subsequent performance. If we are not prepared or not in a position to rectify the defect/replace the delivery, in particular if this is delayed beyond a reasonable period of time for reasons for which we are responsible, or if the rectification/replacement delivery fails in any other way, the customer shall be entitled, at his discretion, to withdraw from the contract or to reduce the purchase price, provided that further attempts at subsequent performance are unreasonable for him.
- (4) There shall be no warranty obligation for normal wear and tear, in particular on parts subject to wear and tear. Furthermore, there shall be no warranty obligation if damage to or malfunctions of the delivery item occur due to improper handling or use of unsuitable operating conditions.
- (5) We shall only be liable for damage due to defectiveness of the delivery item within the limits specified in Clause 8.
- (6) Insofar as the defective delivery item is a third-party product, we shall be entitled to assign our material defect claims against our upstream suppliers to the customer and to refer the customer to their (legal) recourse. Claims may only be asserted against us under subsections 3 and 5 if the claims against our upstream suppliers cannot be enforced despite timely (judicial) recourse or if recourse is unreasonable in the individual case.
